Are these still an active thing? They don't seem to be discontinued on the actual award page, but since I've become active again I've heard nothing about them? I guess they're older now and no one is grinding them but I'm actually curious to know if they're still available or not?

also, is there any award you are grinding for?

Maskin - April 14, 2020, 7:48 am

Nobody has received the award since 2018 so I don't think you can still get them.

Yin Yang - April 14, 2020, 7:49 am

Not sure if it's still active with all the Hackuman and eggs for it going on- the plugin for it may have been disabled.

But as for awards, I'm just going for the Goal awards of lounge award and Ninja.

?nxy - April 14, 2020, 7:50 am

I don't even know what it's for man

I've gotten like 4 rubys just today and destroyed most of them lol they're not as rare as they appear to be I've gotten more of them than the green ones some how lol, I've literally wasted all my bytes

hatching and destroying eggs just so i don't miss out on getting a gold one, cause if i ever do i may actually participate in the game.

You lucky bastard... I have yet to get one egg that's rare. But hopefully, and with some luck, I'll be able to get one too.

And by the way, why aren't you hatching/incubating your ruby red egg homie?

Luca - April 14, 2020, 7:58 am

I doubt it. I haven't seen a lot of people get it recently.

Lack of bytes initially, but out of the 4 eggs I've already hatched only one of them has been decent and it's currently the only one I've kept alive, so id rather the nice red egg on my profile then most likely getting a junk hackumen, I'll hatch it if this one dies.. But tbh i want to collect bytes.

Cyam - April 14, 2020, 8:18 am

If they were still active, many people would get them, but as user above said they haven't appeared since 2018 so they're most likely not available any more.

Ya just need to post a lot.

I managed to get eggs everyday with no problem.

V?rt - April 14, 2020, 10:31 am

Yeah, as a few other people have said, I don't believe they're active anymore. I wish I would have been able to get the other ones before they got disabled. Maybe they'll make a comeback in the future.

Almonds - April 14, 2020, 10:34 am

They old awards you could earn by posting, depending on the amount of characters in the post.

Also I'm pretty sure those gifts were second type of awards received by posting.

Now there are hackuman eggs which are unfortunately not permanent.
