How much would a bot cost that replies to a persons tweet as soon as he tweets?

I have a fairly easy request. Its a little project that I might need a expansion on later but I would want to see if you can adapt to my situation first. let me know if you have some free time. The request is based on a simple game btw.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP

(Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
