I noticed some people mocking this game for being dead and offering no incentive, I've only recently started playing it but perhaps since you can buy money with bytes make an option to trade money or achievements for bytes? I think it'll give more people a reason to play and make it a useful addition.

AYMG - April 15, 2020, 12:28 am

There's already an award goal for reaching level 50. When/if Hack Game gets more features, new awards will probably come.

Omni or Xer stated that Hack Game shouldn't become Bytes mine.

You just reminded me to hack netflix, thanks.

You're welcome for the reminder, and although i agree it shouldn't become a place to purely mine bytes but if you made the conversion not worth actually grinding for but it was enough to actually get people to play the game they might actually play enough to get to a point of earning respectable awards

Cooligan - April 15, 2020, 12:55 am

All it takes is one look at the leaderboard to see that the Hack Game is in no way dead. It might not be as popular as Hackuman right now but the Hack Game is easily one of the best additions to HF, it's wicked fun to play and if you like grinding in video games you'll love the Hack Game.

Been playing it since basically day one and have loved it ever since.

Also the suggestion for "being able to convert your game cash to Bytes" has already been suggested. I don't remember what they said about it but I'm pretty sure it was a possibility down the line at some point but no way guaranteed, if I remember correctly that is.

I honestly don't mind if there are other rewards implemented but as someone who's getting into it

now I was almost deterred by people mocking/claiming it was dead and i guess it is in comparison to hackumen but it would be cool to actually put it in a position for crews to actively participate in it instead of waiting for eggs.

i also got b2b nasa hacks at 9% so fight me irl

Xerotic - April 15, 2020, 8:56 am

No intention of allowing Game Cash to Bytes at this point.

What about allowing us to destroy eggs without hatching them? sick of these damn useless green eggs, or perhaps allowing us to feed the eggs to already established hum as food.

i think alot of the hype died down when the HUM came out. with good reason as i really enjoy that but i still enjoy the hackgame as well. And supposedly there will be crew battles and stuff for that later as well. ?

Pretty sure that the poor Dino's wouldn't want to eat their unhatched buddies. RATR's are sly animals and they might but Dino's will refuse to eat eggs.

Yes, it definitely would be and they're planning to one day make it happen. Just be patient is all.

Also you better hatch that Sapphire egg before it dies!

Game cash to bytes would make bytes way to easy. We don't need bytes just yet.

I wouldn't say that last few days there has been a few threads regarding the hack game and there is still a lot of people playing so it's far from dead
Hopefully with Xerotic actually seeing a few threads he might start doing some more work on it

I read somewhere omni and xerotic were looking at integration or working on them soon hopefully that happens asap

Crypt - April 16, 2020, 5:31 pm

It's fun and the blue egg I just hatched is a straight BEAST. But the amount of bytes the game required is a bit much, takes a while just to save up 100 bytes by posting but you can go through that so quick just to feed your hackumun.

Spoiler [\(Click to View\)](#) Someone buy my sig :(

I've posted consistently 250 posts/day at least these last 3 days and i am broke as shit with bytes even if i didn't gamble them with the amount of eggs i've had id still only have like 500 bytes right now

It's going to cost you 200 bytes just to get the blue egg hatched ;).

Yeah, honestly the only way to get the bytes you'll need for the game is to buy it off someone else or buy the scratchers and hope you win.

25 Bytes instantly for checking into the daily check in thread. Plus the 4 you get for the post itself. That's 29.

hope so the daily mission xp really needs a buff ngl

limit the amount you can do or make them harder but give more xp IMO

but also i don't think it's a big priority since he helps omni with lots of other stuff so we just gotta wait
