Thread: [XmlRpc API](#)

Mr. Crowbar - April 15, 2020, 12:26 am

Hello i'm making a CRM kinda project and i would like to sync it with a website that uses XmlRpc API i have no previous experience with this so if someone could help me it would be nice! I have a documentation of the API but it's in PHP and i need it in c# for my application Part of the API is bellow and i have the full documentation if someone could help me with this. (sorry about any typos, English is not my native language.)

PHP Code

```
<?php
ini_set('display_errors', 1);

// $client = new xmlrpc_client('http://webservices.xaaxax.axax/listingSync/v1_0');
$client = new Zend_XmlRpc_Client('http://webservices.xaxaxa.xaax/listingSync/v1_0');

$appkey = 'xxxx';
$brokerid = null;
$username = 'Txxxx';
$password = 'xxaxax';

$newListingStruct = array(
    'location' => array(
        'geographyId' => '3011',
        'displayAddress' => 'yes',
        'geocodeType' => 'exact',
        'latitude' => '9.012345',
        'longitude' => '1.123456',
        'streetAddress' => array(
            'gr' => '?????????...',
            'en' => 'address...'
        ),
        'zip' => '12531'
    ),
    'propertyDetails' => array(
        'category' => 'commercial',
        'fullBathrooms' => '1',
        'halfBathrooms' => '1',
        'livingArea' => '55',
        'lotSize' => '102',
        'propertyType' => 'other commercial',
        'rooms' => '1',
        'yearBuilt' => '2001'
```

```

),
'listingDetails' => array(
    'brokerListingID' => 'A571',
    'closingPrice' => '110000',
    'currency' => 'eur',
    'dateAvailable' => '16/8/2009',
    'dateSold' => '14/12/2009',
    'description' => array(
        'gr' => '?????????...',
        'en' => 'description...'
    ),
    'exchangeScheme' => 'yes',
    'exchangeSchemePercentage' => '6.8',
    'holidayHome' => 'no',
    'initialPrice' => '150000',
    'listingType' => 'for sale',
    'price' => '125000',
    'published' => 'yes',
    'publishedTSM' => 'yes',
    'publishedBrokerSite' => 'yes',
    'shortTermLetting' => 'no',
    'status' => 'active',
    'newDevelopment' => 'yes'
),
'links' => array(
    'landingPageURL' => 'http://www.spitogatos.gr',
    'virtualTourURL' => 'http://www.youtube.com/?v=iajsdErwWqf'
),
'detailedCharacteristics' => array(
    'airConditioning' => 'yes',
    'alarm' => 'yes',
    'attic' => 'yes',
    'balcony' => 'no',
    'buildingCoefficient' => '4.9',
    'cableReady' => 'yes',
    'corner' => 'no',
    'elevator' => 'no',
    'facade' => 'no',
    'fireplace' => 'no',
    'floorNumber' => '7',
    'freightElevator' => 'no',
    'furnished' => 'yes',
    'furredCeiling' => 'yes',
    'garage' => 'no',
    'garden' => null,
    'heatingMedium' => 'thermal accumulator',
    'heatingController' => 'autonomous',
    'current' => 'three phase',
    'energyClass' => 'bp',
    'internalStairs' => 'no',
    'loadingDock' => null,
    'penthouse' => 'yes',
    'petsAllowed' => null,

```

```
'playroom' => null,

'storageSpace' => 'no',
'swimmingPool' => 'no',
'view' => 'no',
'withinCityPlan' => 'yes',
'zoning' => 'residential',
'employeeLastName' => 'PartnerLastName'
)
);

$listingNewID = $client->call('sync.newListing', array(
    $appkey,
    $brokerid,
    $username,
    $password,
    $newListingStruct
));

file_put_contents("test.txt", $listingNewID, FILE_APPEND);
?>
Thanks!
```
