Thread: [BH Policies and Educational purpose](#)

Zee - April 15, 2020, 8:34 am

Are we allowed to post educational threads for scanning RFID's from long distances? The method itself can be used towards scanning Credit cards, but also have educational usage for anyone having an interest in hacking, and cybersecurity. ?

webdev77 - April 15, 2020, 10:20 am

As long as you are only focusing on electronics for education not malicious intent it will be fine.

[IoT, Embedded Systems, Electronics, Gadgets, and DIY](#) is likely where your thread will belong.

Thank you for the reply, I just wanted to make sure as I know the method can be used for both purposes.
