Skill is seeking talented Call of Duty players to join our group. You will represent Skill as well as Hackforums in matches and tournaments(more info later).

Try out requirements:

Code [color=#ff3333]1. What are your internet speeds(upload/download)?[/color]

[color=#ffffff]ANSWER[/color]

[color=#ff3333]2. What is your K/D?[/color] [color=#ffffff]ANSWER[/color]

[color=#ff3333]3. Would you say that you're in good standing with Hackforums?[/color]

[color=#ffffff]ANSWER[/color]

[color=#ff3333]4. Are you active in the gaming section?[/color] [color=#ffffff]ANSWER[/color]

[color=#ff3333]5. How do you play CoD?[/color] [color=#ffffff]Xbox | PS4 | PC[/color]

[color=#ff3333]6. What rank are you?[/color] [color=#ffffff]ANSWER[/color]

[color=#ff3333]7. Are you able to make April 23, 2020 for try out?:[/color] [color=#ffffff]yes/no[/color]

[color=#ff3333]8. Why should you be allowed to try out?[/color] [color=#ffffff]ANSWER[/color]

Why try out? Skill is doing something different. Instead of just asking what games you play, we set the games we play. Instead of just asking how often you play, we test you and see how well you play. We plan to do something huge, something that no other gaming group has. We want to create a team and if this goes well, we may branch out to other games as well.

Invitations are performance based. Play well, get invited.

Tryout availability is limited.

disclaimer: Invitations to Skill are at the discretion of leadership.

Hope to see some good applicants and players taking advantage of this.

Once we get a memberbase we can start doing cash tournaments.

Redwall - April 15, 2020, 8:15 pm

Is there a Warzone section to this?

Lookin - April 16, 2020, 2:30 am

1. What are your internet speeds(upload/download)? 600 Download | 600 Upload
2. What is your K/D? Warzone: 5.95 | MW: 3.4
3. Would you say that you're in good standing with Hackforums? I'd say so, yes.
4. Are you active in the gaming section? Not as much as I would like to, I don't like the organizing of the forum groups, which is why I think the Skill group would do be better.
5. How do you play CoD? PC
6. What rank are you? Currently 103.
7. Are you able to make April 23, 2020 for try out?: Yes
8. Why should you be allowed to try out? I have a lot of experience in Esports, primarily Counter-Strike, however, I have slowly drifted over to MW instead, as I am loving the fast paced gameplay. I have played CoD since CoD4, therefore I have a lot of experience with the game. I used to play a lot of GBs back when they were very popular, and I would say I did very well. Judging by my gameplay, I would say I am quite a skilled player, and therefore I would like to try out for Skill.

SIM-2327840 - April 18, 2020, 6:51 am

1. What are your internet speeds(upload/download)? 50mbs download/ 10mbs upload(wired)
2. What is your K/D? Multiplayer: 1,01(Low due to trickshotting with some friends sometimes and there are spare deaths and kills not taken.) Warzone: 1,5(Also kinda bad because I dont have any stable teammates to play with, 700+ kills though.)
3. Would you say that you're in good standing with Hackforums? Yes, I think so!
4. Are you active in the gaming section? No really since it can get kind of random sometimes, but I am willing to be active in the gaming group.
5. How do you play CoD? PS4
6. What rank are you? 150 before season reset but 90 now.
7. Are you able to make April 23, 2020 for try out?: yes!
8. Why should you be allowed to try out? Because I am a good player that needs some good players to play with... I have been into CoD gaming since 2012 mainly with sniping(quicksoping and trickshotting) on MW2 and I think I can get along..! There is rarely a game of FreeForAll that I wont win or a Domination that I wont have the most kills. Top kills number in a game: 81?

Thanks?

Why does internet speeds matter? Someone could have a high download and upload speed and

ass ping. Should be asking what's your ping with COD server or X server.

We will be opening to many other games. This is just for the CoD project we're working on.

[+] We want to create an actual team. We have no expectations as of yet on how well this team will perform. Especially being comprised of only onsite players.

[+] If you're interested in a general recruitment I may have that up sometime later. As for now, there is no general recruitment.

Ah man, I stopped playing after MW2 and only have console COD experience from my teenage years... :/

I would really love to see you guys eventually branch out into other games eventually like OW, LoL, HoTS, etc. If your clan ends up growing to be of a decent size!
