Thread: [\\$5 EBOOK ON HOW TO GET STUFF DONE](#)

hugh janus - April 16, 2020, 5:45 pm

Hi everyone! I'm eauonx and although I'm new to this forum, I have been on this planet for a while. I'm here to offer you an e-book that gives you my methods to organize my procrastination. Because let's face it, we have all procrastinated at some point in our lives.

This 15 page e-book will teach you how to organize your workload and procrastinate better. You may ask, why in the world would I want to procrastinate better? Wouldn't I just want to stop procrastinating? Yes and no. It is a lot easier said than done, and believe me, I have tried. 20% of the world suffers from chronic procrastination, and you may be one of them. This guide will teach you how to manage it in the most effective way possible, allowing you to get what you need to done while suffering from your lack of motivation. As a college student, I believe I know the mess of procrastination as much as anyone else does. I'm selling this book for \$5 and offering 2 vouch copies to reputable members who would like to read it and give me an honest review.

Thanks for taking the time to read this and I hope you will think about buying it now! (or later)
[contract=tid]BUY NOW FOR \$5[/contract]

VOUCHES:

(Apr 18, 2020 01:25 PM)lrobert98 Wrote: [\[CITE\]](#) Vouch review of "Organize Your Procrastination" ebook.

Disclaimer: I do not know OP and was lucky enough to receive a vouch copy in exchange for an honest review. I am a very good procrastinator thus this review can be relatable to those in my position who are looking to, well... procrastinate less.

To start; this ebook is written in a manner that everyone can understand easily and are able to relate to. I mean it even has TL/DR summary for each page! Which I thought was quality as a lot of us procrastinators tend to scan through larger pieces of writing and prefer a summary of what's been said on a page. (Of course if you've got an ebook you will read it all but just as a personal viewpoint made me engage with the writer even more)

Regardless of that, the actual piece is written chronologically. Starting with a glossary, the contents and concluded with a page full of tips and tricks.

Whilst reading this, I was enabled to engage with the writer and further I went the more it cleared up how it is little things that may seem silly but when thinking rationally can help an individual as I was able to think deeper about reasons why etc (won't give too much away).

Design: In regards to the design of the ebook, as stated above, it is simplistic in design but I wasn't expecting a fancy ass coloured front page for a book about procrastination.

Is it worth it?

Heck yes, for a fiver this really is a cheap ebook. Your life will improve if you implement what is written.

I am currently trialing what he has written in this ebook and already I feel like it will benefit me. I will

send a further updated review in a week or two time to give a real insight of how my procrastination life has been upon reading this and to see how beneficial this has been.

(Apr 18, 2020 05:47 PM)jembo Wrote: [\[CITE\]](#) So I've been really crazy with the topic of self improvement and biohacking and stuff so I reached out to eauonx to see what this ebook entailed.

First of all, I know that there are a ton of people who are always lurking in the premium seller section and buying ebooks from HF with some methods and expect to make money within the next day. If you're one of those people, you should really reconsider. Making money isn't a bad thing at all, but let's keep it real here. It all starts with you. You could buy the best ebook in the world but if you aren't going to execute and procrastinate, you aren't going to be successful.

For \$5 this ebook is a steal. It has a chronological order of 7 chapters. The ebook starts of with some basics such as what procrastinating actually is and why we do it. Obviously its hard to pinpoint the reason for procrastination for each one of us but I think eauonx did a great job at covering the vast majority of people here!

I really liked the way he gave practical input on how one can change procrastinating and how to really get your priorities right. If I wouldn't have gotten the vouch I would still have bought the ebook since I know that \$5 is just an expensive Starbucks drink for me. But the impact that \$5 could have on me if there's one practical information for me to actually change my pattern of behaviour is priceless. Obviously this ebook doesn't cover any psychological origins but I you're not here to read an academic paper on neuroscience and how we work but to be able to change your bad habit - procrastinating.

Recommending this ebook for anyone that wants to get rid of this habit!

do you do vouch copies, also I love the idea, glws!

lrobert98 - April 17, 2020, 1:07 am

Hey OP!

Procrastination is definitely my weakness. Thus I would 100% be able to leave an honest review as I'm actually excited to see if this can help me.

If you deem me reputable enough (check profile) let me know as I would love a vouch copy.

Thanks in advance

- Lrobert98

Sheep Stealing - April 17, 2020, 3:39 am

1v1 me for vouch copy ???

hugh janus - April 17, 2020, 7:18 am

Vouch review of "Organize Your Procrastination" ebook.

Disclaimer: I do not know OP and was lucky enough to receive a vouch copy in exchange for an honest review. I am a very good procrastinator thus this review can be relatable to those in my position who are looking to, well... procrastinate less.

To start; this ebook is written in a manner that everyone can understand easily and are able to relate to. I mean it even has TL/DR summary for each page! Which I thought was quality as a lot of us procrastinators tend to scan through larger pieces of writing and prefer a summary of what's been said on a page. (Of course if you've got an ebook you will read it all but just as a personal viewpoint made me engage with the writer even more)

Regardless of that, the actual piece is written chronologically. Starting with a glossary, the contents and concluded with a page full of tips and tricks.

Whilst reading this, I was enabled to engage with the writer and further I went the more it cleared up how it is little things that may seem silly but when thinking rationally can help an individual as I was able to think deeper about reasons why etc (won't give too much away).

Design: In regards to the design of the ebook, as stated above, it is simplistic in design but I wasn't expecting a fancy ass coloured front page for a book about procrastination.

Is it worth it?

Heck yes, for a fiver this really is a cheap ebook. Your life will improve if you implement what is written.

I am currently trialing what he has written in this ebook and already I feel like it will benefit me. I will send a further updated review in a week or two time to give a real insight of how my procrastination life has been upon reading this and to see how beneficial this has been.

Thank you so much!! Glad you enjoyed my book.

fayded - April 18, 2020, 7:49 pm

This looks very interesting, good luck with sales!

hugh janus - April 30, 2020, 6:44 am

(Apr 29, 2020 11:11 PM)lrobert98 Wrote: [\[CITE\]](#) gfto don't thread trash and post an ebook you're selling.

Bumping as OP's ebook is a steal for a fiver.
EDIT: Also UPDATE to my situation almost 2 weeks upon reading.

This ebook has definitely helped me procrastinate less, of course it depends on the individual and whether you are going to just read it and not take action or whether you will implement what is said.

However, I am now much more cautious subconsciously and when I do start to procrastinate, what I learnt from this will pop into my head and allow me to get back to doing what I should have been doing rather than pissing about not doing anything. Thanks so much! Glad that my book helped you :)

Stanley - *July 9, 2020, 10:00 am*

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

hugh janus - *January 11, 2021, 7:01 pm*

now selling this e-book again for \$5 BTC/PP!

hugh janus - *June 5, 2021, 10:47 am*

Still offering this e-book!!!
