Thread: [Free online Harvard learning classes](#)

Vibe - April 16, 2020, 8:59 pm

Hey guys recently learned you can enroll in some online courses for free
<https://online-learning.harvard.edu/catalog>

You have to pay if you want a certificate or whatever but you can enroll and learn for free. They have a nice variety of courses as well.

Have seen this before, thanks for sharing though.
Definitely good to gain some knowledge during quarantine.

Hi

Thank for sharing. Will enroll in a course.

I went through the site, but couldn't find a business analysis course, cananyo e suggest?

I joined a weather class, Python class, and biology class.

Already made it through the first step of Python, just brushing up on it from school.

I always thought the weather was cool, and this seemed fairly easy.

Biology is one of the coolest things ever.

I used to take 4 classes per semester in school, I think I can handle 3 :P

Thanks again for sharing.
