PLZ IF YOU THINK THE METHOD ARE WORTH LEAVE A LIKE

10 Steps To Success

Lbc/paxful method This method has a risk to it. I will not be held responsible for failure to do this method nor if a vendor ends up scamming you. It is your own responsibility to find out which vendor is legit and which vendor is not legit.

What you will need is 2 paypal accounts 2 ebay accounts Localbitcoins account
Bitcoin

You can buy bitcoin off of coinbase.com With a credit card or you can use other websites like cex.io Now what you will do is that you will make 2 paypal accounts and make 2 ebay accounts You should already have 1 paypal account so now all you have to do is just make another one with an rdp You can either use an amazon rdp http://docs.aws.amazon.com/AWSEC2/latest/WindowsGuide/EC2_GetStarted.html

Or you can use an rdp off a site like <https://greencloudvps.com/budgetwindows-vps.php> Costs \$8 ^

Make sure to use a windows rdp You can also buy rdp's off of hackforums

Now all you do is make ab ebay and paypal on the new rdp and make sure to have at least a credit card or bank acc on the second ebay

<https://paxful.com/sell-bitcoin/ebaygift-card>

[https://localbitcoins.com/instantbitcoin...ry_code=US &amount=&cy=USD&place_country=US&online_provider=GIFT_CARD_CODE_EBAY&find-offers=Search](https://localbitcoins.com/instantbitcoin...ry_code=US&amount=&cy=USD&place_country=US&online_provider=GIFT_CARD_CODE_EBAY&find-offers=Search)

You buy ebay gift card off of these sites and then what you do is put the code on your second ebay and then make a post on your 1st ebay for something really overpriced like for example if you have a \$500 gift card you put an ipod for \$500 and then you buy the item an the \$500 will go to your main account then you withdraw the \$ to your bank/etc.

Repeat this process over and over again and you will end up making bank. People on those 2 sites sell ebay gift cards for cheaper then the actual value <https://gyazo.com/8c7cf8d8180f39f880cdf0b4f9bf94f6>

You can see here how the guy is selling an ebay gift card at a rate per bitcoin of \$8000 when btc is only 2,545 so you will be making over a 3x profit.

not very long before you'd be banned by ebay

As soon as you buy the gift card, the scammer will use the code and you will be scammed first. Dont even try this shit.
