Thread: [\[WEB DEVELOPMENT\] Coderage Web Development Service \[119\\$ - 900\\$\]](#)

Syano - April 18, 2020, 11:21 pm

I'm offering my service of creation on Web Development.

What can I do?

I can design your website, and create a website that is responsive.

I can do a website for portfolio, blog, one page introduction, or business web-page with shoppy api.

What is my pricing?

Between 119\$ to 900\$, this will depend on the given project.

How long it takes?

Between 1 to 7 Days, but still be depending on the given project.

I can do a project for 1 page that has design and responsiveness for business services such as refunding, boxing etc.

Just a Inttroduction, Buttons, Pages, Navigation etc. I can show my recent work.

Contact me via Discord here: Humphry#4349 | I'll give further discussions about my service.
