I see that you joined HF yesterday. First thing you do is revive another pathetic attempt at ratting HF members. I suspect SniperBandit did not get the attention he wants and is working on getting as many accounts to revive this sht attempt at ratting for the future.

Doubt if this download is legit, i highly recommend not downloading this.

Thank you. This is a high quality post. Can you come up with any other niches for Discord? Like to target different higher value people? Anyone please feel free to let me know. I may even tip you \$BTC\$ if you come up with something good.

Thanks OP.

Again... another clown who joins HF and the first thing he does is promote a sht attempt at ratting users here???. Either we have a lot of naive users here or SniperBandit has too many alts. Not enough alts apparently to save his sinking ship of a ratting attempt.
