Was the PM from Stanley or is someone trolling you

I saw it minutes ago, and I ordered my hackuman to kill the poor egg .
better luck next time mate.

That would be something that Xerotic would probably have to look at.

Anyway, green eggs are useless, so it's better that way

Eggs are useless, you don't miss big things, sir

Jam1e - April 19, 2020, 5:47 am

I also received a green hackman egg. Sadly it was short-lived, and was soon killed off. But I never
received an award too. Do you lose the award if your one and only egg/hackman die?

Ha! I didn't realise that, thank you very much.
Also, what are the odds, but I found another egg by making this post ?

I thought they are useless too, when i got killed after hatching it.

When i start killing other hackuman is fun, then i realized it's not useless.

Game is really fun indeed...I've seen you've hit my hum 3 hours ago ???

SaintJimmy - April 19, 2020, 5:56 am

Seems like it's an error with the Hackuman system perhaps. I would suggest reporting about it to Xerotic and see if it can be fixed. Might be some minor glitch.

Not going to follow whatever he is saying. Most of my kills came from blue eggs, maybe i'm lucky because I had something like 3 blue, 4 red and 6 green. If you don't have any blue, obv go for red or green.

shitmaster - April 19, 2020, 6:08 am

I have decided to only open any eggs other than green now. But for health green is better than red though.
