Its very old rat so some of its features are outdated, and top of that as Its old its mostly detected by most of big AV on runtime.

This is not a crypter. This is a mentoring/setup service. Please re-read the thread and the description of each plan for more information. Thank you!

Hello, thanks for your interest. This is a RAT setup and mentorship service, not a crypter or RAT program itself. Thank you!

One of the best experiences I have had on HF and I have been a member for over 7 years. He explained everything well and made everything simple for me to understand, well worth the price.

Stanley - May 20, 2020, 11:55 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
