Thread: [25\\$ BTC / 10.000 bytes GIVEAWAY!!!](#)

SecretAchiever101 - April 20, 2020, 2:51 pm

This is my second giveaway in a week. I must be going crazy. But still, it feels good helping the community that helped you grow. So why not!

However this time I'd like to do something a bit more exclusive, for upgraded members only!

Rules

1. In order to participate + rep me to enter. All + reps are treated as 1 entry, doesnt matter your usergroup.
2. Post! Post as many times as you wish! If you have + repped me in the past, just post that you are grabbing an entry! Each member has only one entry tho, no matter how many times they post.
3. For your prize you can pick either 25\$ BTC or 10.000 bytes!

Contest ends at 5/2! GOOD LUCK TO ALL!

And the winner is.... [Kant Atta](#) ! Congratz my man! Thank you all for participating!

First winner was [Yanix](#) but I had to reroll because he is banned. I had limited access when the winner was drawn so I had to /roll via random.org and not via HF's chat.

Visit [this](#) link to see for yourself.

This fact doesn't mean that I am not trying to help. I'd done more than 5 giveaways the past years. I wasn't trying to achieve motm all of these times. You can check my profile if you think that I am lying.

Stanley - April 27, 2020, 9:25 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
