Thread: [Stats, stats, and more stats.](#)

Xerotic - April 20, 2020, 6:48 pm

Today HF has overhauled the statistics page. We have added tabs that now include much more data about various HF features. These include forum posts/threads, byte activities, HF games, and the Marketplace.

The stats page can be found on every page in the footer or you can click this link here:

<https://hackforums.net/stats.php>

The majority of these stats are updated once per day. So sitting on the page refreshing it won't bring you any value. Just come back the next day to check the latest stats.

If you have any further stat suggestions then you should post them in this thread.

Thank you and enjoy.

Toosii - April 20, 2020, 6:51 pm

Thank you and enjoy. I think the richest user list was a good feature I think Adding that to the bytes tab would be good with idea the top 10 to richest or something.

The top 10 to richest or something.

Okay. I know it didn't make the transition for now but I personally liked that too. Good chance for it to come back.

Lavish Living - April 20, 2020, 6:53 pm

Damn cool seeing the totals. I have like 1/12th of the total sportsbook bets, 1/10th bj bets, 1/10th slot bets... I am 1/10th of hackforums.

Thank you.

I am king.

Toosii - April 20, 2020, 6:54 pm

Spelling was horrific there, high in bed and on my mobile.

This would be a pretty cool addition. What about even adding a top donator of the day?

Toosii - April 20, 2020, 6:57 pm

(Apr 20, 2020 06:56 PM)Crypt Wrote: [\[CITE\]](#) This would be a pretty cool addition. What about even adding a top donator of the day?
I like that idea too, a lot.

Xerotic - April 20, 2020, 6:58 pm

(Apr 20, 2020 06:56 PM)Crypt Wrote: [\[CITE\]](#) This would be a pretty cool addition. What about even adding a top donator of the day?
Top donator of the day I might add. The top donator overall wasn't really an interesting stat because large donations were usually sales and the "all time" stat for that data is boring and almost never changes. But a daily stat for it would be interesting because it would change every day.

AYMG - April 20, 2020, 6:58 pm

Nice addition, looks clean.

It hurts to see Hack Game missions are only 50% completed, any chance we could get notifications in the future?

Xerotic - April 20, 2020, 6:59 pm

It hurts to see Hack Game missions are only 50% completed, any chance we could get notifications in the future?

It is often a skillful calculation when deciding whether or not to accept a mission, based on its payout. By that I mean that not all missions NEED to be completed.

Looks much more appealing on the eyes as well. Nice job Xerotic.

Btw on the market tab it says there's 0 vendors.

I was actually talking about notifications when we start a mission and we scan ports or do other things (it takes a few mins but members sometimes forget about it).

Edit: Getting notification like "Scanning port is finished".

Xerotic - April 20, 2020, 7:02 pm

Btw on the market tab it says there's 0 vendors.

Yeah I noticed I have to correct that one.

It's your mission, not HF's mission.

Angela White - April 20, 2020, 7:03 pm

One small issue I noticed, if you go to the "market" tab, it tells you there are 0 vendor members.

Dorrance - April 20, 2020, 7:03 pm

Nice stats I love the numbers game.

Cameron - April 20, 2020, 7:04 pm

(Apr 20, 2020 07:02 PM)Xerotic Wrote: [\[CITE\]](#) Yeah I noticed I have to correct that one.

Looks amazing though. I'm kinda surprised by the total bytes volume, assuming that counts when the scratchcards were broken as well?

Xerotic - April 20, 2020, 8:54 pm

(Apr 20, 2020 07:04 PM)Cameron Wrote: [\[CITE\]](#) Looks amazing though. I'm kinda surprised by the total bytes volume, assuming that counts when the scratchcards were broken as well?

It does. We can look into clearing those out but the total volume will likely still be in the XXX,XXX,XXX range.

Charger - April 20, 2020, 8:59 pm

That looks very nice.

Suggestion:

Total Contracts shouldn't include incomplete contracts.

Code 163,579

Completed Contracts

70,224

Active Contracts
3,403
Pending Contracts
129
Disputed Contracts
1,844Total is actually 75600

And please remove [mention=3583467] from top poster.

Astrogen - April 20, 2020, 9:42 pm

Awesome update! Would be cool to see some graphs there in the future like in the analytics. I also feel like everything is given out at once (too much information), it's just me tho ?

Almonds - April 20, 2020, 10:35 pm

Great update, this is an excellent source of information.

Nate - April 20, 2020, 10:52 pm

Looks way better than it did before, great job.

Accord - April 20, 2020, 11:01 pm

Gonna beat Stanley to become top poster here, this is a nice update xerotic!!

Ombra - April 21, 2020, 12:06 am

Cool, I like it but it still doesn't make sense seeing that most replied threads are always the same ones with 3k+ posts, created years ago.

I don't even remember if we have a limit to 2k posts, then threads will automatically close, or it was removed.

Bossk - April 21, 2020, 7:46 am

Omg this is awesome. Thanks!

but lets not forget who pioneered this statistical improvement

Don't know if it's possible but as of now it shows Stanley the top poster? Maybe exclude him from the list because he's just a bot right?

Fortunate - April 21, 2020, 1:01 pm

This is interesting and useful! Thanks for this Xerotic.

Could we remove Stanley as the top poster? I remember when I was aiming for the title one day I had to keep up with Stanleys constant bump posts. Never again.

Yin Yang - April 21, 2020, 1:05 pm

It looks nicer and clean! Great job as always.

Lavish Living - April 21, 2020, 1:05 pm

I was looking at all the new categories and stats, I don't see any on awards? Users with the most amount of awards???

Hmmm

What's this about? [Xerotic](#) ??

spiral - April 21, 2020, 1:15 pm

Another great update, wonder what else is planned for the future.

Toosii - April 21, 2020, 1:16 pm
