Thread: [How would I pull ips on ps4?](#)

murd - April 20, 2020, 10:10 pm

I want to be able to pull ip's on ps4 in games such as modern warfare or 2k. how would i do this? i've tried lanc and either it doesnt work or im just to stupid to get it to.

madasahatter - April 21, 2020, 2:35 am

Same goes for me with lanc. I join a party and start pulling, yet it givese me a lot more ips than there are people in the party.

TacigYT - April 22, 2020, 6:33 am

you could to try to fliter it with port 9307

Rezy - April 22, 2020, 6:38 am

Google it i use it do it through my laptop and was a proper skid and use to boot people, Although my method was mainly only for Parties.

Jay21309 - October 15, 2020, 6:26 pm

how the heck do i pull ips the right way on ps4

SysAdmin - October 15, 2020, 10:37 pm

Do a MiTM Attack on your own network and use wireshark to capture packets from PS4, if that still works.

408pHased - October 25, 2020, 10:44 pm

this is how i do it on xbox:

i arpspoof my xbox wit a tool from github just lookup arspoof program, then i enable packer forwarding on my laptop(google how to do that) n then open wire shark n set the receive everything from the source of the xbox ip, xbox is a udp port i don't know about ps4 tho.

by xbox port i meant the port for the xbox live protocol

packet forwarding*

and set the filter to receive all traficc from xbox's ip
