Thread: [Direct download link for rat](#)

Spikera - April 21, 2020, 6:32 am

Hi,

I have a question is it possible to make a direct download link for a rat.
I have a html layout and on it a button i want behind it a direct download for my rat is that possible.
So what i mean is when You click the button You get infected
Please help me struggling for days with it

Direct download will only download the file on there system,
but after downloading you also need to run that file!

The only way you would be able to do that is if you have exploit kit, otherwise they would have to
download then run your executable.

So its not possible ?

What exploit kit i need for it to work?
