Thread: [Turned \\$10 into \\$2,000 with Soccer Sports Betting!!](#)

So a couple of months back I placed a 8-team parlay on the best soccer teams (that I thought would win) and it truly paid off. I'd like to thank Messi for not playing in the Barcelona game which game me +420 odds.

Damn now that's a pretty crazy flip & parlay

Hats off to you, very smart play. I can't wait for the football to come back on.

Juventus is currently my favorite team (CR7).

I actually also placed a bet on them winning by itself separate from that parlay, also made a bet a different time on Ronaldo getting a hat-trick, and he did. From that hat-trick I turned \$1 into \$25 xD

That's crazy! Congratulations! How long have you been betting?

Good flip, pretty insane how one player missing could change a bet lmao

I hope you don't do parlay often, it's a good way to lose all your earnings. Trust me I've experienced it.

Damn nice, it's so hard to hit these parlays when you have so many different bets like that all together
