Liked your video, great stuff! I'm working on my own no copyright music channel myself, and I'm curious what software / website you use to make your videos?

I currently use adobe after effects, I can help you if you need to. Im just trying to grow it but it's more of a hobby and way to learn after effects

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

liked and currently watching the whole video.

You should also ask people to stay on the video as long as possible (mute it and browse HF in the meantime if they don't like it) but it's important
