The #3 looks sick

I vote for #3. =)

Cognito - August 12, 2010, 5:42 pm

its amazing im pretty sure the 2nd is just a templates and hes edited it in dreamweaver. i seen it on scriptmafia ill try find again

Uncle Drew - August 12, 2010, 5:51 pm

No. 2 looks great but the design is too common.

So I voted for no.1, lack of contents though.

No.3 I don't like the colors of the buttons and the text. Seems like rushed.

SirBoss - August 12, 2010, 8:48 pm

Jkymmel's Entry was nice, voted for it.

A. Darkwill - August 12, 2010, 9:35 pm

#1 is too plain.

#2 is quite professional looking, but I find many professional looking sites to be void of color.

#3 is looks to be of professional quality and has some nice colors.

zyvox - August 13, 2010, 2:46 am

Voted 2, although I also like #1 very much. I didn't like the #3 coz it's just too much of the same and... I've seen that alot before I mean, it's getting boring. However, #2 was FRESH and COOL it's was absolutely awesome :D #1 Too, but I think #2 was better =)

Diabolic - August 13, 2010, 5:00 am

Killerbeats is awesome, Our new design!

Xinapse - August 13, 2010, 5:02 am

It has to be number one , very clean and professional

Swagbucks - August 13, 2010, 5:02 am

PartyBash - August 14, 2010, 2:54 pm

I really like number 1 it's clear and simply good-looking sometimes less is much more.

Kinky - August 16, 2010, 12:04 am

The first one is just terrible, the third one's fonts just ewww, and the 2nd one is really good!

Entry #2!

TmaxX - August 16, 2010, 9:30 am

Indeed, i think my top one needs a little more content, but i have no more inspiration for that design :(

Voted for killerbeat :P (I cant vote me ;()

I like the over all feel, even if its not as clean as it could be :P

voted for #3

goodluck to the participants

Volcomusa - August 18, 2010, 4:00 pm

They are all REALLY nice!!! But, I chose #2. Here is why:

1: Too basic, and the layout isn't that nice.

3: The text is hard to read, although the layout and effects are awesome.

2: Juuuust right.

Sobriety - August 19, 2010, 7:19 am

Good god, and you wanted to be a successful web designer? Goodluck, when you obviously have no clue on professionalism and how everything is set up.

R?putation - August 22, 2010, 8:28 am

I really like number 2

I need more words cause this shit is too short

(e1usive)D3viant - August 22, 2010, 12:18 pm

I like number 2, its more professional then the rest, however I would suggest that he changes "My Works" to "My Work".

Number 1 is also very nice, however I could not vote for 2, sorry mate.

The 3rd design is rubbish, sorry but it is. The txt is unprofessional and very hard to read (header & body). The colors are to vivid and it makes the txt hard to read and my eyes are pulled to the header, which is not what you need for a professional design. You need your users to look at the main content, not a box in the header, unless it is a show case for promo offers or previous work.

xC3 - August 22, 2010, 12:41 pm

#2 looks the best and most professional. #2 all the way!!!

#1 is also pretty good. but i like #2 better.

#2 is horrible. just so nasty, nothing looks professional.

Persona - August 29, 2010, 9:20 am

I voted for #3. The other two were just so plain. #3 looked really nice.

Oh, didn't notice it was over, still, #3 looked best.

Entrepreneur - August 29, 2010, 9:21 am

I vote for number 2, it looks clean and appealing.

DarylB - August 29, 2010, 9:41 am

TmaxX - August 30, 2010, 10:59 am

I guess people dont like portfolios..

jkymmel - August 31, 2010, 12:52 pm

It's not as gloss, it looked almost vector :P

Gratz On winning ;)

Oynx - September 5, 2010, 5:43 am

#1 Simply because it's easy to read and simple, the third one is too hard to read and is out of place and the second one doesn't have correct grammar, "My works" should be "My work"

Mr. Flow - September 5, 2010, 10:14 am

JKymmel's photo is dead. Too short.

Eliten - September 6, 2010, 7:47 am

Picture two is dead, so I just saw the first and third and I've to vote for number 3.

elzarie - September 7, 2010, 5:20 pm

Number #2 looks so nice

-->-->-->

Hackzable - September 8, 2010, 10:30 am

I'm not l33t or ub3r so i can't edit the first post, sorry guys

kyoutu - September 8, 2010, 10:47 am

Number 2, Lake or originality but best by far.

1 is lacking in much.

3 BLUEBLACKBLUEBLACKBLUEBLACK to much, I really dislike how this colour combination has become so popular and I believe this is the reason that it will win.

People, look at how professional and suitable it is. Not how "cool" it looks. If you don't enjoy failing as a graphic designer.

(this isn't hate, just getting people to vote intelligently.

Glide - September 8, 2010, 8:20 pm

i pick number 3 because it has a style like my own, but number 2 was also very good

Chronic. - September 9, 2010, 8:49 am

yeah #3 is the best

short

short

short

spittta - September 9, 2010, 5:15 pm

I liked the first one, very good job, 10/10.

luft - September 10, 2010, 1:56 pm

nummber 3 for sure the others are boring :(

Witsel - September 17, 2010, 5:00 am

i voted for 2 because it looks pro , on 3 the text is unclear.

hahaha.lol - September 17, 2010, 8:08 am

I wish I knew this...I would have designed one!
Voted for Entry 1 ..looks clean
It was quite difficult to judge b/w 1 & 2...

I hope i compete for the next time!

Fracture4 - September 18, 2010, 1:45 am

#2 GMV. It's really nice and I love the layout. I also generally love JKymmel's work.
#1 was nice however, I feel it lacked substance.
#3 looked rushed, things need re-placed and generally more time needs taken to work on it.

GJ JKymmel.

Kalvaxas - September 19, 2010, 7:45 am

#2 is to professional, #3 caught my eye.
I voted for #3

Jojje03 - September 19, 2010, 8:40 am

I vote for the 3rd one. (now it isnt too short)

diller - September 19, 2010, 1:14 pm

darkkid9000 - September 20, 2010, 4:43 pm

Charmz - September 27, 2010, 2:48 pm

I voted for #2. I like it.

SavageBoys - September 28, 2010, 8:51 am

V.V This has been over forever.

Innovus - September 29, 2010, 10:29 am

IDK if this is over since it's kind of old but it was near the top so...

#2 and 3 just look ugly as hell, I don't know why they got so many votes. They look really messy and have just overall poor design, I'd expect to see these on some wanna-be WoW guild website.

#1 looks the best because it is clean and professional and looks like it could actually be used for a legitimate portfolio. Only thing I'd change = The Download | Share | Expand. It just looks out of place and needs to be cleaned up a little.

12KPR - October 2, 2010, 6:42 am

Voted for entry 3.Killerbeat,great job :O.You are really a pro for it ;).

cyxtiz - October 11, 2010, 6:55 am

it looks like pro did it

VIPhiggz10 - October 13, 2010, 10:04 am

Second one is best in my opinion although they are all very well done. Although I require 100 posts to vote soo...

brevvo - October 13, 2010, 10:27 am

Yeah i prefer entry #3 but i dont like the text at all , it is fairly hard to read tbh :/

HoldenLuukkonen - October 15, 2010, 12:52 am

Jkymmel! #2 ITS NICE AND JKYMMEEL IS ESTONIAN LIKE ME! :D

eseal - October 17, 2010, 5:46 am

New Age Griefing - October 24, 2010, 11:41 pm

Entry 2 is gettin my vote for sure

Dusk. - October 25, 2010, 3:21 am

i really liked number one and three but i chose number one ... :P

+iPokemon - October 25, 2010, 7:34 pm

Way to use Paint.NET for the gradient bars #2 :D

Graffworld - October 27, 2010, 1:52 pm

some people don't have good judgment and it's a shame that number 1 lost the contest. number 2 is a bunch of separated lines and the content doesn't flow. number 3 is very unorganized but I guess is appealing and has vibrant colours which attracted some to it.

Mano - October 28, 2010, 4:29 pm

I'm going to go for #2. It has a more professional look.

Agelast - October 28, 2010, 10:28 pm

damn i need 100 posts to vote.... i say jmyk wins my vote ^^ just because its simple and appealing to the eye

King James - October 29, 2010, 12:11 pm

Number One. Looks pretty good and I like it.

Don't like three at all.

Vodka and Balalaika - October 30, 2010, 2:36 pm

vote for #1

#1 Simple and nice...

#2 Are nice...

#3 DO i have rly to say about it? :S Sorry but font don't even kinda suits to web.

Soulcal - November 17, 2010, 9:46 am

3 is more unique than the other two but the others look very clean and professional :)

BOND007 - November 17, 2010, 10:00 am

My vote goes to number #2 . Really good one

Nitrox - November 17, 2010, 10:01 am

I vote for number #2 provided it has not been ripped from somewhere else.

Flatter - November 17, 2010, 6:15 pm

The 1st one looks like it was done very nicely and took a lot of time. I vote 3 (not 100 posts).

Steric - November 19, 2010, 12:11 pm

Entry 3 was simply the best as it was most retro <3

Hack - Forums - November 20, 2010, 7:31 am

1st one, 2nd one is too casual imo, and 3rd one reminds of spore.

Vito Scaletta - November 20, 2010, 2:47 pm

No. 3

definitively number 3 <3

Symbiotic - November 21, 2010, 2:03 pm

I like number 1, not sure why. I think it gives you that feeling of being outdoors even while inside.

kenshiwo - November 21, 2010, 7:18 pm

I voted for #1, seem like a professional webpage

Xeroxix Vx Labz - November 22, 2010, 4:11 am

I personally vote #2, very crisp detailed design.

AUTISMUS MAXIMUS - November 22, 2010, 12:59 pm

Entry 3 is so sickk

Good Job

hoanghacker - November 26, 2010, 3:17 am

number 3 has cool text! anyone know what text is used for the title?

Emily - November 26, 2010, 7:17 pm

I don't have 100 posts, but I vote for 3. Its awesome. :)

Flying Dutchman - November 27, 2010, 3:29 pm

I vote for Entry nr.2 . All the details are well made and it just looks like it took a lot of time.

Nr 1 is too simple, it looks more like an entering page than a website.

Nr 3 doesn't look professional, I don't like the font.

But they all are nice, good job!

Earth - November 27, 2010, 4:31 pm

If i could vote (dont have 100 posts) I wouldnt have either voted #1 for simplicity or #3 for design

ven0m - November 28, 2010, 12:05 am

well #2 has contents arranged in simple way but well informed.

so i will vote for #2

ShadowBox3r - November 29, 2010, 10:42 pm

Can't quite vote yet as I am a new member, but I would go with entry #2

Intergalactik - November 30, 2010, 2:13 am

The last is a template monster skin.

I'm voting for the first.

EDIT :

Oh damn, old thread...

Robie - December 19, 2010, 3:23 pm

I think entry 3rd looks the coolest, but I think the 1st looks more professional.

tayraN - December 20, 2010, 7:29 pm

cant vote atm but I would go with entry #2

Qwazz - December 20, 2010, 10:42 pm

Personally I like the third one the best it looks very professional.

Sweetpuffz - December 21, 2010, 7:16 am

I voted for #3

I like the look of it, keep up the good work :)

Ctrl Alt Defeat - December 23, 2010, 7:15 am

Three is the best ;) its futuristic and cool.

C-Digg - December 23, 2010, 12:55 pm

Number 3, definetly.

Absolutely gorgeous.

Emporer - December 25, 2010, 10:46 pm

My vote is #2..

#1, its just to simple.. has no excitement.

#2, it's really appealing my eyes were struck by it, amazing..

#3, my eyes were like wtf sorry.. thats rubbish

Intergalactik - December 26, 2010, 7:53 am
