Hello guys!

I am not sure if this e-book it's already posted. If is this the case I'm sorry for advance and I will delete this post as soon as I notice that.

I found this e-book trying to the same that I am doing here, trying to generate an alternative income. But I found this information in a reddit sub.

This is a simple pdf document, that tells you by using a survey app, and by referrals, you can win easily and quickly a hundred bucks.

When you use a referral code you win immediately 5\$ and 50 points.

- The 3 first referrals give you 25% of the points of your friends and partners.
- When you get more than free, this percentage increments to 50% of the points that your partners win.
- This process can be repeated limitless.

Eazy gG, Wp.

That way, we both. The one that shared the link and the new partner will have the same possibility.

I appreciate very much your feedback. I will answer honestly all your questions if you are interested.
