I'm not really sure how big the market for these is still, but I have a lot of these I'd like to get some money out of.

Will sell for \$0.8 each.

Can definitely be used multiple times as I've used 48 hours for over a year's worth of play time on my account.

Not sure about stackable though, I've never tried to redeem more than one at once. I always used one after the previous one ended.

48 hours?

Like once I redeem it, I get a membership for 48 hours?
