Thread: [My inbox is apparently full but I don't see any messages](#)

debian - April 23, 2020, 7:54 am

I've not been able to receive any PMs and I keep getting email notifications saying a user tried to PM me but my inbox is full. But when I got to all my folders (Inbox, sent, trash, drafts) I don't see any messages.

What does this link says? What are the numbers?

Athr - April 23, 2020, 8:52 am

When I send you a message:

Quote:Please correct the following errors before continuing:

debian has reached their private message quota so your message could not be sent.

Aedan_ - April 23, 2020, 9:00 am

You need to go into your deleted messages folder and delete those messages as well. I had the same problem when I first started, easy fix.

Damn, then you have to wait for Omni to reset it for you or something.

Do you have an absolute TON of Convo messages by any chance?

Just curious if that may be effecting your PM's.

I'm sure the conversation system and Pm's will be completely different.

I would also wait for him to see the thread.

Well if it says your inbox is full, I don't think he'll be able to message him back. I'm sure he'll reply to this thread once he sees it.

Hopefully! I'd like to be able to PM
