Thread: [6.3k YouTube Subscriber Account](#)

**Ytube** - April 23, 2020, 4:03 pm

Amount of subscribers: 6.3k

Country of subscribers (majority):

Topic/Niche: N/A

Promotion methods used? Sub 4 sub

Description: I have a 6k subscriber channel. It's gained them from sub4sub, but it's an old channel and you can build an audience on the amount of subscribers and the join date helps as well. The custom url is also available.

I'm looking for around \$100.00 and am open to offers. Someone's already offered me \$75.00 off site, but they're still waiting to get back to me.

It's not for sale at the minute because I'm trying to fix it. Someone's also offered me \$90.00 for the channel, once I get it sorted.
