Exchangers Official Recruitment

Overview of "Exchangers"

I started Exchangers to help bring great businessmen together. We are a crew of just exactly that, Exchangers. We are after like minded members that have and continue to successfully run a business here on HF, not to mention their businesses outside this community. An important realization for me, when it came to opening this Crew, was although we run out businesses often alone, we must stick together. Together we will help each other strive through sharing ideas and safety tips.

Perks

- Beautiful User Bar
- Great like minded members
- Set your Exchange / Shop apart
- Use the Crew Logo and Dividers in Your Posts
- We plan to do giveback to the community that helps us strive via giveaways

Qualifications to join Exchangers

- Have no unresolved deal disputes
- Have 1 or more established businesses here on HF
- Although there is no required tenure, it is weighed

How to Apply

- Post on thread below
- Link a thread to a successful business thread
- If you use multiple threads for your business and not 1 main one, please explain
- Besides the above requirements, you may add anything else you think we should know / sets you apart

Rules / Guidelines

- We do not accept buy ins
- You will be kicked if you are found guilty during an open DD
- Any unneeded drama that negatively affects our group creates a kick
- Your membership will transfer to Group membership if we ever evolve to a Group

Thank you everyone for the support!

Love,
Ruggzee

Let me give you all some advices:

- Take some time when creating your application. Appearance is key when doing business and you

should be able to impress readers.

- You can describe why you decided to sell a specific product rather than another, post some insights about your business and something you've learned while doing it.
- You can post about errors you feel you made, because we all do errors. The important thing for every successful businessman is learning to not repeat errors and be ready to face problems that have already been experienced.

Good luck ?

Here is a previous main exchange thread I had [here](#). Have been working on a few things lately and plan on rebranding to open up again shortly. Have done tons of exchanges here over the time I've been on HF.

I have experience in the financial world well beyond the "norm" ... Can provide a lot of insight and help protect legit exchangers here on the forum.

Looking forward to see you transfer it into a group one day.

Introduction:

I'm confident that you must have gone through several applications and would like to know more about what a user could bring to the group? Therefore, I won't start with my name or age; instead, I'd say that I'm very fanatic about whatever I endeavor. There was a time when I had no idea about how the marketplace works, or how people manage to make top bucks either by scamming or by real hard work!

Bygone is bygone, and after striving hard and gaining intel on certain things that excites me the most is SEO. I spent months on this specific topic, and instead of buying any online course for SEO, I did some intense research and gained adequate information and facts, and today I'm known for my SEO Services only! I'm sharing the history to let you know that when I make a decision, I don't back off and try to withstand every situation even if it hits hard. As I've already mentioned my primary business; therefore, I'd like to share the threads for your reference.

Why I want to join?

I often contemplate the adage of "Change is the only constant" - Joining a group of like-minded people would help me to raise my voice and bring some revolution.

Please don't take my words; I've plans that I'd like to evangelize into action!

Lastly, I'd leave everything at your discretion, wisdom, and believe that your excellent sense of judgment would be wise and shall be embraced!

Regards

Deal, if you leave your current crew, they might have space for me? Swap?

Truth - April 26, 2020, 8:00 pm

I been on HF almost 10 years now with over 10k posts and have always been exchanging and doing business on here. Not as active as I once was due to my other online businesses taking a lot of my time but still looking to grow on HF

Target™ - April 26, 2020, 8:03 pm

My name is Target and I have been on HF for over 8 years now, ever since I was about 14 years old. I've learned a variety of things from on using hacking programs such as RAT and Crypters, selling eBooks, currency exchange and much more. I have never had a deal dispute open against me the 8 years I have been on the site. I used to be a LOT more active before contracts were a thing, but hoping to regain my activity soon.

Business Threads:

<https://hackforums.net/showthread.php?tid=4316996>

This was my most successful exchange thread, getting over 100 vouches/successful deals before the contract system went into place. I love the idea of exchanging however I slowed down greatly on it for some reason I don't remember why.

Giving two links because this is my most up to date. This is my current project i am working on.

Kareem - April 28, 2020, 11:29 pm

Wow. I am so shocked to find a group like this. Honestly i've been looking for a community like this to join for a long time. My name is Kareem and I have been on this forum for over 3 years. I used to do currency exchange and lost a good chunk of money due to chargebacks and scammers. The most notable one was a \$330 paypal chargeback. These experiences have given me knowledge and wisdom when it comes to currency exchange.

Here is my newer currency exchange thread (not a lot of vouches because I just started actively trading again): <https://hackforums.net/showthread.php?tid=6033070>

Here is one of my past currency exchange threads prior to the contract system that has many vouches on it: <https://hackforums.net/showthread.php?tid=5637140>

Don't let the number of contracts I have fool you. I am no beginner to currency exchanging. I have a good reputation on multiple forums and am returning to HF for currency exchange because of the contract system. I could bring a lot to the table here, as I could teach people about other platforms to make profits with CE other than HF, as well as helping build a network of trusted exchangers. I know we are all tired of getting scammed, and being a part of a group like this has many unique benefits.

Overall, with this quarantine going on I plan on being a lot more active on HF. Being a part of a group would give me a place to direct my focus and free time, as well as helping me learn more about successful forum trading. Only a fool thinks they know everything about anything.

Thanks, Kareem
