Thread: [NewsVoice SMS Spammer](#)

flexing_99 - April 24, 2020, 1:35 pm

This is a sms spammer method for NewsVoice.com, to use just change the number and the country code and hit the url as many times as you want.

Code <https://newsvoice.com/action/smslink?number=%2B1930000000&promo=app%3Afloat>

Are you sure they do not have ratelimits per number/ip?

jordanian55 - April 25, 2020, 5:20 am

I'm new here with less experience in the field.What do i do next after i have changed the country code and hitting the url

A json response should appear. It must say success:true.
