Thread: [Microsoft RDP CAL Licensing Method](#)

NSA - April 24, 2020, 2:59 pm

So, this method is to be able to sell client access licenses for Microsoft RDP.

I have been selling these off and on for a couple of years, prices go up and down.

a year ago i could sell one license for around \$120. now its around \$50-120

Price depends on which OS you sale and how many connections.

They sell really quick on eBay, i sometimes got more than 2-3 purchases a day.

When you buy this method you will receive my method on how to license servers, you will be able to license Microsoft Windows 2008/2012/2012R2/2016/2019/VDI.

If you go on eBay and search for "Microsoft rds cal" you can get a sense on how their selling.

I'm only selling 2-3 copies.

trying to get \$400-500 for the method.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
