Thread: [Quick Love Analytics](#)

Xerotic - April 24, 2020, 4:38 pm

We have updated the profile analytics page to include Quick Loves that you have received. Enjoy.

What other analytical data would be cool on this page?

I could see time online fitting in nicely although I know it's elsewhere for all-time.

Missed this thread but thankfully the HF news brought it to my attention.

Another fine addition to the statistics, which I'm sure many of us will appreciate. Nice work, HF team!

Actually, now that I think of it, a great improvement would be to have some kind of mouse indicator for certain points on the graphs, similar to how this graph works:

(Don't worry, I didn't write that example and as such cannot be held responsible for the usage of the keyword var)
