Thread: [About to graduate college with an accounting degree](#)

After 5 years, 150 credits later, I'm finally graduating college with an accounting degree! Already have my first job lined up as well as an auditor. Overall I'd say college is worth it because I had the best 5 (4 and 3/4th) years of my life and I'll be making a hell of a lot more money than my friends at home with my degree. I'll soon be picking out my graduation car after this quarantine is lifted then onto the real world haha. Scary stuff!

Accounting is one of the best degrees that you could possibly earn in college...you're set for life my man. This is a bigger accomplishment than most people think.

Congratulations and hats off to you, wishing you the best of luck with your job and future even though you won't need it because you're set.
