Thread: [Question about Crews](#)

**Hero** - April 25, 2020, 11:15 am

Hello,

im really clueless right now. I see people offering buy-in spots to their crews, but how do i make my own?

How much does it cost?

What are the requirements?

How long do they last?

Do i have to be upgraded?

Im really sorry if this is in the wrong section, but i didn't want to annoy a staff member about it.

Thank you!

Price? <https://hackforums.net/showthread.php?tid=5999707&highlight=crew+price>

Requirements? Not sure.. I think owning a crew / cartel.

How long? Depending on your payment. 100k Bytes is lifetime I think, while 20k is only a month. As example!

Upgraded? I think so, but unsure.

There was some thread about this, but I can't find it that fast. Will update post once I do.

Thanks for the fast reply!

Im thinking about creating a crew, but the prices are really hard to pay on my own lol.

Might just join a already created crew. So upgrading and joining one is definetly cheaper than buying my own i assume. Not sure about the bytes=dollar worth.

I personally would buy a group over a crew if you're in that market.

Here is updated price of crews:

<https://hackforums.net/showthread.php?tid=6063380>

Haven't seen any requirements to own one. Don't think you need to be upgraded. They are lifetime crews unless you piss off Omni really, really bad. Bytes = 1000/\$5 usually, so the street crew is 50k bytes, which is about \$250.

I see. IMO opening a Crew on my own is probaly not worth it, but selling buy ins is probaly a good way to make the cash back that i spend on a crew. I'll probaly just upgrade and then buy myself into a crew.

Yeah definetly gonna think about it. Money is kinda tight right now, but i tend to "just" upgrade and join a crew. Probaly the best bang for my buck. (boomer talk lol)

EDIT: Upgraded. Thank you for the answers! Hopefully my hackuman survives for a long time :D
