Super fun game and story. Great if you like room escape games

There's 10 of them - I'm on the third right now. You gotta go through from 1 to 10 so you can follow the story

This is the first one:

Yeah, right! The first one is really easy and short. The third one is weird and kinda just puzzles - I didn't like it. I'm on the fourth one now though and it's awesomeeee. The story just keeps getting better

They all make you really think, I like when it has a story to it too like not just a random room but like how it makes sense what's going on ya know?

I haven't played that but I remember myself downloading flash games (.swf) because the internet was limited back then, we only get access a few times a week so we have to download to play them even without the net.

Never tried it, might give it a go. Thanks OP.
