Thread: [Trap Nation?](#)

Macbook - April 26, 2020, 3:10 am

I heard that the owner of Trap Nation "Andre" used to have an account here on HF and was active.

Is this true? And more importantly, does anyone here have a relationship to that account? (Knew him?).

Edit: I think his account name had something like vax, vex in it. I'm not sure.

Stanley - April 26, 2020, 3:28 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

You should have kept the post count at 150+ characters. Can someone else try my newly founded method thanking [mention=3583467] in a post with 150+ characters?

It was 150+ I guess (didn't count it I'm on mobile/lazy) but quotes are included on the count.

I have always wonder if someone in this forum became famous and if they got any backlash for being on a forum called " hack forums " cause according to people and media anything with hack or hacking in it is extremely bad and you should back away from that person. fugg the media

Haha yea basically the same. Someone with a pretty large YouTube fanbase saw that Andre had an account here. So he exposed him as a "hacker" that hacked his way to his success. Which was completely bullshit obviously.

That's funny to me because if I were him, I'd be thinking "how do I hack people into liking me?!" as if it makes any sense lol. People just hear the word hack and get scared.
