A lot of reviews online say that Holosync doesn't perform better than cheaper binaural beats out there, but they do work.

So, basically, OP is selling you VERY high-ticket and overpriced binaural beats at a VERY reasonable cost/huge discount.

This is worth the money in my opinion. The sample I received made me super calm, relaxed, and it even made my body tingle. I felt no stress while listening and it was dope.

Thanks for the vouch, OP.

Thank you, [LawRDP](#) for being generous and sharing a vouch copy with me. I'll be honest with my review; at first, I thought it might not work; however, after listening to it for the next 5 minutes, I felt a little relaxed. As all you need to do is just stay calm, and listen to it without thinking of anything. Some users might flounder while relaxing themselves, but what I tried was closing my eyes and then listening to the sample.

The bottom line, the sample that I received was soothing and helped me initially to relieve stress, as I could feel my heartbeat. Assuming the actual pack would be even better. Likewise, \$10 is the best price, in my humble opinion, and seems to be a good deal.

Thank you!

AD47120 - April 30, 2020, 3:32 am

To be honest, I went into this expecting nothing but a bit of placebo. I listened to a track he recommended to me for productivity and dayuum did it work!

I am a copywriter who usually writes around 1000 high-quality words in 2 hours (including grammar checking). Using this track, I did it in 1 hour 15 minutes!

Maybe it was placebo, maybe it was real but in the end, I shaved off 45 minutes due to listening to this - Vamos!

Stanley - May 3, 2020, 9:08 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Any chance of a small sample?
Curious how it compares to any of the other free stuff

Invictum - May 4, 2020, 1:18 am

I received a vouch copy from OP.

After comprehensive review, I found I felt rather euphoric (almost tingly) and able to think straight during and after the sample given. It's caught my interest and has me looking more into audio effects on the brain with different frequencies. I suffer from some attention span issues sometimes and I believe this genuinely helped me focus. I'm actually gonna go ahead and purchase the whole pack too.

billybonkers - May 4, 2020, 5:36 am

Received a small sample from OP

Definitely very calming and relaxing to listen to, obviously everybody reacts different to this kind of stuff and it's not really backed up by any studies so I suggest finding some free stuff on youtube to give it a shot and if you feel like it helps you then I would definitely recommend picking up this as it's basically the best available.

Hey HF, OP had sent me a vouch copy to review for Holosync, now me being an avid binaural beat/isochronic tone listener over years, i can tell this is of better quality(although I had only listened to one of the tracks), i'm awaiting to hear the rest of them but from the first couple minutes, it had pulled me in and put me in a great mental state. The sample i was given had a little rain in the background which was very soothing and some instruments here and there that added to the overall sense of the soundtrack. Although owner did give me instructions on what to do how to listen, he didn't tell me what this beat was ideally used for.(he did mention activities but mindset wise each beat is designed for a specific goal such as better sleep, faster reaction times, etc) Now with having bought several beats priced at over \$10+ each for several years, I can tell you that this package of \$5-10 for over 50+ tracks is a HUGE steal. I, myself will be buying this and know I will be getting my money's worth. Thank you again OP for the chance to review this and will be in contact with you about purchasing.

Its actually 50+ audio files that are of premium quality, you won't find anything like this on youtube as there is a huge gap in quality between the free ones and the paid ones I am providing.

The reviews on this topic give a good idea on that :D

Did you make them?

Did you pirate them or did you pay a guy on a site such as Fiverr to make them?

Like where do these come from?

MnMs - June 30, 2022, 12:19 pm

From what I know you can get these completely for free on YouTube by searching Hemi-Sync Monroe Institute, these guys spent like half of their life age just making and experimenting with the perfect methods that were tested on actual people and delivered to the CIA. So yea, don't forget to #THANK your boy for sharing this. I have been in Frequency Generating, Binaural, Monaural, and most importantly Subliminals that are TOP secret atm used by MKULTRA. Bought leaked patents of Darky. I am generating beats myself, if anyone is interested let me know!

Posting here to come back later. I would need this for sure. I have anger issues.

By looking at the vouches, it looks to be sound that calms your brain. 10 bucks for this is not bad.
