V.V.V.V.V - April 26, 2020, 1:45 pm

Hello!

Thought I'd share a second landing page for "Valorant beta", This is also a variant of a online generator.

The content locker can be found in: main1.js.js, then search for "verifyspot" and you will see my link and just replace it with yours and save.

Please don't spam me with PM's just post here and I will get back to you ASAP.

Kinda confused as to what this is and how it works. Mind explaining? As far as I am aware you get Valorant beta access by linking a riot account with twitch and watching people play. Kinda confused at where a "key" would come in as you wouldn't have anywhere to put a key even if you had one. Maybe I am mistaken?

This is outdated, the game is out of beta and no longer requires keys to play as it is free to play.
