PetrovDefense - April 26, 2020, 2:40 pm

Hello,

Seeking mentorship that I will compensate for in BTC for the following.

Please PM if you are interested in mentoring, and can provide methods for the following:

1. Apps
2. Proven traffic sources
3. Effective dialogue to gain followers that are interested in purchasing/conversion/overcoming common roadblock
4. Effective and untraceable method to secure payment for photos/vids that works outside of the U.S.
5. Effective and untraceable method to turn payment into BTC

#4 and 5 is most critical information for me as I am not in the U.S. (i.e. Not sure if I can leverage Venmo, Cashapp etc).

If you are interested - please shoot me a PM with the rate you are interested in for exchanging this service and information. Thank you.

I can just tell you rn, either you get a stealth paypal for your ewhore so you can transfer the funds to your main paypal or you can make them buy an amazon gift card and send it to ur email, so u can sell the cards at 70-80% btc
