Thread: [Oldschool Protector | Scantime FUD & Runtime UD | C/ASM | RunPE+LoadPE | .NET&Native](#)

stringsnstuff - April 26, 2020, 3:13 pm

Oldschool Protector | Crypter | C/ASM | No dependencies | Bypass Windows Defender | RunPE + LoadPE

\$35 per month
\$80/3 months

Features:

C/ASM

RunPE stub

LoadPE stub

.NET 4.0 RunPE stub

AES encryption

50-100KB stubs

Anti-dumping

Anti-disassembler

No dependencies

Anti-debugger scripts

Checks for hook scripts

Bypass Windows Defender

Dynamically calls functions/API's

Builder requires C++ 2015 redistributable for cURL.

100% Scantime FUD and 5/23 runtime as of 5/3/2020

Anti-emulator(VPS, VMware, Virtualbox, Sandboxie, AV emulators, and more)

Stub update (RunPE) 0/26 <https://antiscan.me/scan/new/result?id=L7leONhraiBb>

Stub update (LoadPE) 0/26 <https://antiscan.me/scan/new/result?id=3B4vsMGDJJ5k>

Here is runtime check (5/23 - crypted Dark Comet):

<https://dyncheck.com/scan/id/ffd96f037b59a3aa0904123ca539b671>

Vouch copies

Spoiler ([Click to View](#))

(May 4, 2020 01:35 PM)TheAnon.hf Wrote: [\[CITE\]](#) My review about the Oldschool Protector

This crypter is surely good and has a nice code behind it, they detection rate is low compared to most of the products on the market so yeah. Here some results Without and With Oldschool Protector,

Here's Without Oldschool Protector:

Here's With Oldschool Protector:

Overall a nice crypter you want to buy, price it's right by my opinion, keeping in mind this is a very HQ Crypter I would recommend, it might be a bit pricy but with some reworks I think I would definitely grab a copy!

My suggestions: Add a more detailed GUI, it will benefit! Trust Me!

(May 7, 2020 05:47 AM)Subliminal_ Wrote: [\[CITE\]](#) I have been testing with the developer and can confirm that the crypter now bypasses Defender, McAfee and ESET Signature and Runtime detection.

The developer is a very smart man and I know that soon enough he will have bypassed all AV's.

I come from ChaseNET, was DarkCoderSc's beta tester 17 years ago and have worked for most of the Cyber Security companies in the UK.

Terms of Service

Refund won't be issued.

Oldschool Protector will be used for educational purposes only.

DO NOT scan crypted file on sites that distribute such as Virus Total.

Don't post any of your problems on the thread, if you have a problem then come ask the developer.

ONLY scan on sites that DO NOT distribute such as Antiscan, Kleenscan, Cyberscan, AVBox, and

Dyncheck.

Lextian - April 26, 2020, 9:19 pm

Posting to come back when am ready to test this with DarkVision rat.

stringsnstuff - May 1, 2020, 8:43 am

Here is new updated stub crypted with Gaudox:

https://www.kleenscan.com/scan_result/1ec0b93fb3ff830324dd4c1fa0c7e943879eb8cec452449dd3219959fd7fd3c3

<https://antiscan.me/scan/new/result?id=TkWS8iLveGRy>

ScrubspooF - May 1, 2020, 5:43 pm

Could I get a vouch copy? I'll review your product fully and do a write up.

stringsnstuff - May 3, 2020, 5:33 am

(May 1, 2020 05:43 PM)ScrubspooF Wrote: [\[CITE\]](#) Could I get a vouch copy? I'll review your product fully and do a write up.I don't mind giving you a vouch copy, we should use the market system for vouch copy. Fill out the contract form and mark "Vouch Copy".

TheAnon.hf - May 3, 2020, 11:50 am

are you offering vouch copies?

Predator2 - May 3, 2020, 12:06 pm

do you offer , private stub?

stringsnstuff - May 3, 2020, 12:10 pm

Here is newest FUD scantime check. Kleenscan

https://kleenscan.com/scan_result/d87aa064c3dd3ef5d2ec690bfda0f8a98be7808a03893afe176308a9f845c65b

Here is runtime check on dyncheck.

<https://dyncheck.com/scan/id/34f6c80497814716d059143f03440d43>

And avbox https://avbox.info/page/scan-result?task_id=7x8wnDeLjgv0

Raz3rTuto - May 3, 2020, 5:57 pm

I just send you a contract for vouch copy please answer me :)

ScrubspooF - May 3, 2020, 9:08 pm

I have removed my review. Disregard this post.

stringsnstuff - May 4, 2020, 4:35 am

Thanks for your review. You were saying your file wouldn't run in VM. I said that it has anti emulator scripts and this is why it won't run in VM. I'm pretty sure my crypter is compatible with your software it's just you were trying to test in VM. And you said 3/30 on Kleenscan. You can look and see that SecureAPEX engine is always saying "Malicious" so it's a false positive, and VBA32 and NANO are only detected on Kleenscan.

New .NET 4.0 stub FUD 0/30 crypted with Quasar:

https://kleenscan.com/scan_result/be7e294f19aea164dbb1eff89d872143b1fb89466df635ca4221a6db67ad9783

(May 4, 2020 01:35 PM)TheAnon.hf Wrote: [\[CITE\]](#) My suggestions: Add a more detailed GUI, it will benefit! Trust Me!

I think the whole thing is that it's supposed to represent an old UI.

Hatchet - May 4, 2020, 6:19 pm

looks like a quality product with a simple GUI , nice job ;)

i'mCasaNova - May 5, 2020, 10:16 am

interesting! Vouch Copy?

stringsnstuff - May 6, 2020, 5:12 am

(May 5, 2020 10:16 AM)i'mCasaNova Wrote: [\[CITE\]](#) interesting! Vouch Copy?About to message you now to give you the last available vouch copy, thanks.

Stub update (LoadPE) 0/26 <https://antiscan.me/scan/new/result?id=3B4vsMGDJJ5k>

Here is runtime check (5/23 - crypted Dark Comet):

<https://dyncheck.com/scan/id/ffd96f037b59a3aa0904123ca539b671>

I can remove Bit Defender detect and those 2 static detections, I'll post results in a few days.

Subliminal_ - May 7, 2020, 5:47 am

I have been testing with the developer and can confirm that the crypter now bypasses Defender, McAfee and ESET Signature and Runtime detection.

The developer is a very smart man and I know that soon enough he will have bypassed all AV's.

I come from ChaseNET, was DarkCoderSc's beta tester 17 years ago and have worked for most of the Cyber Security companies in the UK.

Redwolf3221 - May 7, 2020, 10:19 am

Purchasing Contract is Opened

i will post Feedback after Looking this nice tool

stringsnstuff - May 7, 2020, 11:07 am

Okay I have initiated contract.

Redwolf3221 - May 8, 2020, 5:40 am

Purchased and got Quick Delivered.

I just used it now 1 day maked a few Runtime tests & scantime

Scantime is overall the whole time FUD. sometimes 1 Detection
Runtime is FUD for any BIG avs you in need. some not Special ones Detect it but i dont matter its one of the best purchase in the last months
i did and i had them all here.

The seller is a proffesionall and very good to get in contact with.

10/10 Delivery
10/10 Crypter
10/10 Owner

Regards Redwolf3221

Regards Redwolf3221 Thank you for your honest review. Soon I will bypass Bitdefender and will be 3/23 runtime. Few static detections too that I will try and get off, which I think I can, which will bring it down to 1/23.

(May 5, 2020 10:16 AM)ilmCasaNova Wrote: [\[CITE\]](#) interesting! Vouch Copy? I have sent you a vouch fopr 48 hours ago, when are you going to leave a review? Thanks.

sifekama - May 10, 2020, 2:40 pm

Hi mate do you have Dyncheck scan with internet ON for see real result please i'm very interested

stringsnstuff - May 10, 2020, 2:57 pm

(May 10, 2020 02:40 PM)sifekama Wrote: [\[CITE\]](#) Hi mate do you have Dyncheck scan with internet ON for see real result please i'm very interested No I don't have Dyncheck scan with internet ON.

nCuX0 - May 11, 2020, 2:33 am

i was lucky enough to get a vouch copy of this crypter and i can only tell you that: this is top notch , support is also amazing, very fast and reliable, I did a runtime test with ESET, AVG and windows defender(newest) and all of them were just silent as Real Madrid was when Barcelona beat them in their home.

This guy knows what he is doing, if you are looking for good crypter dont hesitate to buy this one.

stringsnstuff - May 11, 2020, 5:29 am

(May 3, 2020 09:08 PM)Scrubspooft Wrote: [\[CITE\]](#) Here is my brutally honest, two post long review.

Tested the file in a windows 7 and windows 10 VM, both threw errors. I assume this is Anti-VM.

Then I tested the file on my VPS:

LoadPE:

File downloaded fine. Payload ran silently but did not execute properly, no connection to home base.

RunPE:

File download failed, browser detected malicious file.

This is my brutally honest review. Would I buy this crypter? Not for \$35, it seems to have compatibility problems with the software I tested with at least. But it seems to have potential if it can pass scantime on AntiScan.me. Your complaining that your file won't run but I told you that it won't run in Virtual Environment. You also gave me a neutral BB rating because it wouldn't work in a VM, this isn't cool. You also won't respond to any of my private messages and it's been over 72 hours. I don't like you. I've also private messaged you quite a lot asking you if you'd like my help and you never responded and it's been 3-4 days.

TheAnon.hf - May 11, 2020, 7:50 am

finally, you took our suggestion to implement a GUI NOICE!
