Thread: [Feature Problems](#)

Omniscient - April 26, 2020, 4:55 pm

I am having some difficulty with an update for the server that's still not functioning correctly. Already 3 hours into it and still not figured it out. Currently ordering is NOT working with Bitcoin. Other functions might also not be working correctly.

Working as hard as I can to get this all corrected. Pain in my butt on a Sunday afternoon. Oh well. Will be fixed asap.

Thanks.

Astrogen - April 26, 2020, 4:56 pm

Thanks Omni, adding sig is also not working last time I checked earlier (Signature image doesn't exist).

Nate - April 26, 2020, 4:57 pm

Should be out spending time with your family on this nice sunday afternoon (Well it is for me). Haven't noticed any problems yet tho, except Stanley keeps giving me eggs.

Dorrance - April 26, 2020, 4:58 pm

Thank you for the update and getting to the problem.

Threat - April 26, 2020, 4:59 pm

Thanks for the update Omni & working to solve it.

Angela White - April 26, 2020, 4:59 pm

All good if I see anything else broken I'll let ya know.

shitmaster - April 26, 2020, 5:07 pm

That must be an inconvenience for you. Thanks for giving us a heads-up!

Exposed74 - April 26, 2020, 5:09 pm

I'll ship some lube, might ease the pain !

Joke off : Good luck on that and thank you for providing us HF !

123 - April 26, 2020, 5:12 pm

Hope this gets sorted out soon. You have a god Xerotic with you. He might help a bit I guess..

Ghost.13 - April 26, 2020, 5:15 pm

All good.

Sunday afternoon work is just a bummer. Hope you can fix it soon.

Ombra - April 26, 2020, 5:28 pm

Lucky man, I wish I could get more eggs.

@Omni keep up the good work, thank you for updating us

SaintJimmy - April 26, 2020, 9:54 pm

Thanks for updating us Omniscient. Must be a hard time getting around to fix it on a Sunday afternoon when you all you'd want is some time off and spend it relaxing.

Confound - April 26, 2020, 10:58 pm

Thanks for the update. Hoping everything has been resolved smoothly for you.

Happy Monday folks.

Makaveli The Don - April 27, 2020, 2:10 am

Thanks for the update Omni. Hope all is well!

ArchNet - April 27, 2020, 3:06 am

Thanks Omni for the great work you are doing !!

I do confirm that as of now is not yet possible to pay via BTC (i was trying to pay the Uber upgrade).

Keep up the amazing work !

Hero - April 27, 2020, 6:47 am

Nice to see some background stuff :) Always nice to know. I assume by now you already fixed it, but i didn't notice any errors so far. So yeah, you seem to have a high standart which is nice to see <3

Keep up the great work sir!

No Hero is not yet working the BTC payment.

Almonds - April 27, 2020, 7:23 am

Let me know when it's fixed! Interested in purchasing some features ?

Omniscient - April 27, 2020, 12:00 pm

Looks like we got it figured out. Basically some dumb azz complex crap with some update that had DNS and SSL problems. Once again the HF setup is so complex that it's like a house of cards. One thing goes wrong and it tumbles. Xerotic was a big help in the testing to troubleshoot and narrow this down.

Sorry everyone who waited on upgrades and orders. You SHOULD be good to go now.

Ombra - April 27, 2020, 12:16 pm

It probably is but it works great. Nobody yet claimed your BTC bounty for exploiting the site.

cig - April 27, 2020, 12:17 pm

Thanks for the update, I look forward to this being fixed.

Edit: Booyah it's fixed.
