This is a great ewhore pack made for Snapchat. All the pictures are organized in folders. You can easily find what you are looking for. My favorite feature of this set is the video verification. Accompanied this with the ability to send live fake videos this pack will be completely great for making money. This pack would work best for a premium snapchat ewhore. I also made sure to reverse image search several as well as checked some of my private sources and none of the pictures came back a match.

Huge vouch from me. Glws OP. The girl in this is really attractive and believable that she is who she says she is.

*Keep in mind this is a vouch copy but have NOT altered my opinions based off that.
