Thread: [Awards Page could use some updates](#)

Confound - April 27, 2020, 8:16 am

Hey staff,

Just wanted to bring this up in case someone wanted to spend a few minutes fixing on the backend.

-

Grand Amethyst is still available and should link to donation page.
Cyber diamond is no longer available.

I'm not sure if I missed any, don't think so. But thought I'd at least raise the flag.

Thanks

I rotate them. Not that big of a deal really.

What if instead of a list.. it was like a carousal? Having the awards rotate with a description.

Awards' Status: Available or Not Currently available.

This would be very informative. Just really nit-picky and a little polish if nothing else. Doesn't really add much to the awards' page other than a complete overhaul and hours of your life bringing it alive.
lol

Sounds good. Didn't think it was much of a big deal, but just thought I'd flag it as I wasn't sure if it was on accident. Thanks for the reply.
