Thread: [Redirect the Buy-Sig Icon to the user's page not the Sig Market](#)

flavoral - April 27, 2020, 9:58 am

it's a bit pain in the ass sometimes when you see a user's post, see that their sig is available, click on the icon at the top right of his sig and it redirects to the sig market where you have to search for the user again rather than it going to the user's Buy-Sig page.

That is true, I think this does need to be tweaked a bit.

Flav you're a piece of scum, you stole this idea right from my own mouth.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

opening this again. Can you also do it on the button on profile sigs too? they still redirect to sig market.
