Thread: [Post Bytes Bonus?](#)

Boil - April 27, 2020, 10:39 am

Anyone else get a PM from Stanley saying this? Wondering if its new or has been around for awhile. Also to get some more bytes this way (;

Rezy - April 27, 2020, 10:49 am

Also just received this, got an extra 100 bytes, i am not complaining.

If people are going to intentionally post in the wrong forum in hopes to wrongfully gain an award, that's not going to happen.

Take an extra 2 seconds and make sure whatever you are posting is of reasonable quality since losing posting abilities for a day or a week would certainly not help your goal.

Exposed74 - April 27, 2020, 11:13 am

Yeah. In my case, my mobile actually sucks when it comes to Hackuman. I tried a few different browsers. I had planned to use the Desktop version on my mobile but my big thumb doesn't make it any easy.

So when I play Hackuman, I do it using a PC.

Not sure if it was luck or what but I seem to get hackumon regularly now, probably because I increased my post amount as well as how many words I put in my posts. For sure a smart way to increase post quality and reward that with virtual currency and "pokemon" type creatures as a reward. I'm not sure if there's further bonuses though.
thanks

Seems like you already do. I was at 82% but now I'm back at 65%. I don't post in the Lounge until I find something that interests me. A lot of random topics lately and I don't post on any of them.

Yeah, but after how long? That's the question. Some people have spend 5 figures in gambling on bytes. Some have spent over \$100 worth of bytes on slots. Max I have spent at a stretch is about 1800. All this still doesn't guarantee that dice.

this doesnt mean you must spend anything on bytes.

These days I just run 1 or 2s on the slots. Winning or not, it's still a valid try for the dice. I may have some random luck at winning it sooner or later. Not worth spending huge amount of bytes anymore.

Yes I understand these concepts.

Not gonna lie, it took a long ass time. if you dont like playing the slots, wouldnt bother i guess.
