Thread: [341% ROI PER YEAR I DON'T SELL DREAMS BUT WEAPONS JOIN THE ILLUMINATI SECRET](#)

Asmodais - April 28, 2020, 6:51 am

I don't sell dreams but weapons.

There are 540 million firearms in circulation worldwide. It's a gun for 12 people on the planet. The only question is: how to arm the other 11?

You understand.

I am not your friend.

I sell weapons to entrepreneurs, marketers and other predators plaguing the Internet.

Some sell dreams.

I sell weapons.

And if you don't buy them, a competitor will.

At the same time ... putting the outrageously low price 29 dollars was like distributing heroin to Puerto Rican teens in the 80's Bronx.

Understand this:

If you do not take these weapons, a competitor will do so and will end up with your money and your wife (good for this last point I have no precise statistics to demonstrate what I am saying).

It is pure economic Darwinism.

You've probably never heard of it.

But something is happening in the investment world. An opportunity for more than 3 billion which ... if you are fast enough can earn you between 168 and 341% per year.

All without any tax.

And in just 5 minutes of "work" per day.

Rest assured :

It's not actions

These are not ETFs or complex products

It is not real estate whatever its form or its price

It's not cryptocurrencies

It's not bonds or treasury bills

It's not Forex

It's nothing like that. It's safer, faster, and less risky

In fact, only certain professionals are passing the pipe between them ... And this small network of investors remains very discreet on the subject.

Above all, they don't want it to get out. And we can understand them ... The opportunity is too good to be shared with everyone.

Of course, like the majority of people, you probably haven't heard of it.

And yet, this secret investment could earn you up to 341% per year, WITHOUT PAYING tax.

341% is transforming € 1,000 into € 4,410 ... without lifting your little finger or almost.

All LEGALLY... and dedicating ONLY 5 small minutes a day.

For that :

NO need to freeze your money for several years to wait for a return on investment.

NO need to buy a single stock on the stock market.

NO need to have significant capital. You can start with 100 €.

It's gambling In the field of blackjack and roulette

I'll tell you why I created Gamblers Kings (GK)

Because I am told "yeah man, but if it's great, why are you selling it for 29 dollars

Good question.

By the way, it's called an Akerlof effect in economics: the price is an indicator of quality (think of German washing machines). ???

In short.

Why, suddenly, it only costs 29 bucks?

Many reasons

Because I want the most people in it

Because I still want motivated people (when it's free people don't do anything, sorry but it's a statistical certainty)

Because I don't want armored people in it (I can sell it for 99 or 199 € per month... it would leave

but people who really have the slab could not necessarily join us).
The price is accessible to all
