I had some trouble with server and he helped me as soon as possible.

After he didn't knew a way to fix the problem, he sent me new vps, with even more GB, for free.

Great service! Thank you once again

The delivery came in about 2 - 3 days late, but he ultimately came through and upgraded my plan as an apology for the late delivery. Overall, the RDP is solid and does more than what I need it to.

Am interested in the 56GB with GPU, also what service provider are you using? and will you offer a vouch copy to test your service out? Also are this legit servers that can be renewed monthly or are they hacked?

PM me about the 56GB with GPU server.

As for the other questions, I cannot disclose what service provider I am using, there is one vouch copy left can provide :D, they are legit servers (not hacked) but cannot be renewed monthly.

Hello, sorry for the direct question, but are these "legits"?

Because I'm searching for VPS for several months and I don't want it/them disappears after a while :)

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
