Thread: [MAKE UP TO \\$700 A DAY IN QUARANTINE WITH NO EXPERIENCE \(LIMITED SLOTS\) 1:1 Mentorship](#)

hugh janus - April 28, 2020, 3:01 pm

Hi all, my name is eauonx and I've been browsing these forums in search of a way to make money at home while stuck in quarantine. I've tried e-whoring, bought e-books, but nothing really worked for me.

However, I was finally able to make a method of my own, that after testing, has a TON of earning potential.

With my method, your earning potential is literally uncapped and you can make as much money as you want! All that matters is the effort and work you put in, and 0 prior knowledge is required. This is a black hat method but in no way are you at risk for getting caught if you have any kind of common sense.

In order to conduct this method, all you need is:

- A CashApp/Venmo
- A way to cash out
- Social Skills

This method allows you to make money with a simple process. You don't need to learn much, and everything you need to know will be spoon-fed to you by Yours Truly. All you need to know is how to talk to people.

If you are tired of seeing 1000s of dick pics or sexting old men, then this is the method for you! Start earning today.

Since this is a 1:1 mentorship for anyone that purchases the e-book, I will start by only having 10 slots available and 1 Vouch Copy for an extremely trusted member.

- Copy 1: VC Given to @Banana
- Copy 2: \$50 Sold to @Plactus69
- Copy 3: \$70 Sold to @PublicEnemy.
- Copy 4: \$90
- Copy 5: \$110
- Copy 6: \$130
- Copy 7: \$150
- Copy 8: \$170
- Copy 9: \$190
- Copy 10: \$210
- Copy 11: \$230

This will also ensure that the method does not become saturated.

I have also created a discord server in which members will get continuous updates and general help with what works and what doesn't, so the community can help each other earn.

Got a vouch copy for this. All I can say is, no.

This is illegal AF. You are directly scamming people using this method. This is fraud.

Bought the first copy, and will update this post later when I implement the method. As posted above, yes this is blackhat. However, it looks unique and promising so I'll leave a more in depth review once I get it all set up.

Why would anyone do this - especially in these tough times?? Doesn't make sense man.
