Thread: [\[WHITEHAT\]\[NoobFriendly\] EASY INCOME - Earn \\$100/Week! \[BEST VALUE\]\[Vouch Copies\]](#)

DublA - April 29, 2020, 9:33 am

EASY INCOME

New for May 2020!

Stop paying \$50+ for methods that do not work or \$100+ for a method with some kind of “refund” or “support” option. No more dealing with threads offering “50% off” methods which really do not mean anything. This will be the last (and perhaps first) eBook you will ever buy. No fancy thread designs or slogans selling you a dream of making \$5000 a week. No screenshots of my PayPal or bank balance because what would that prove? This is NOT for you if that is what you are looking for! My book will not make you rich but will provide you with a solid side hustle income for minimal time and effort. My eBook consists of MULTIPLE methods, all of which are stupid easy. By reading my thread and considering the purchase of my eBook, you have already qualified yourself as competent enough to achieve a consistent income using my method. What am I talking about?

Well, you have an account on HF and you are reading this in English, so that tells me you are a decent English speaker who can read and comprehend an eBook, and you are also part of a hacking community so you are probably above average when it comes to knowledge about computers and the internet. Finally, the fact that you are considering buying an eBook tells me you have or have access to either PayPal or cryptocurrency. Nothing more is required of you! This is quite possibly the best value on HF! If you cannot earn with this eBook, unfortunately you probably won't earn with any eBook. That is how confident I am that you will succeed with this eBook!

Other sellers on here charge 4x or 5x for one or two of the MULTIPLE methods that I am selling; don't believe me?. Check the vouches!

Don't take my word for it! Check out the vouches from HQ members below!

you mention a list of everything it is not, can you give us a clue as to what it is? Are we selling something?

how much time involved after initial setup?

Any special tools needed (vps, vpn, etc?)

Appreciate your time.

Hello, let me say with this method that it can be a very good turn around if you have time/patience. Yes, you'll make some money with this guide but it does require some work. This method does require some investment with some stated ways to make cash, this method is very well written and looks like it was some type put into it, but some of these methods are already 'known' but if you're looking to spend some cash to make some cash; they're potentially some that you're not gonna know about potentially. This method is very easy to follow. As I can say, i'd give

this guide around a 7/10 as they're some methods that have been released already and easily found by searching the web.

Whenever I was reading this guide, it hit me with a few other ideas and methods that you could potentially bring up and make autopilot, this guide can be autopilot if you wanna put some extra work in. The grammar in this is mistake free, I did not see any mistakes. This is very lengthy as it is 16 pages long and OP must've put a lot of work into the eBook. I personally could see great potential with this guide if you do a few of the steps inside the method.

Personally, I've seen some of the methods on this go for higher amounts on the forums. This method is great for the price.

Thank you for your interests, There are multiple methods included which range from selling digital items online to selling your time online. There is a little hint for you.

After you have everything setup, some methods you can spend a lot of time and get paid for the time you put in and other methods are more autopilot (i.e you wait till you get sales).

With regards to tools, if you live in a developed country, you probably don't need anything. If you live outside a developed country, perhaps a VPN to get your location spoofed to a developed country for best results.

Hope that helps!

Best Deal on HF! Count on it.

I received a vouch copy of the ebook from [DubIA](#) . The methods in this ebook are written well, has lots of earnings potential, and are easy to execute. I've also seen some of the methods in the book BUT he explains them well, there's one method that really spiked my interest and i'm going to implement it soon. Honestly for the value, i'd say its worth it. If you put in the work you should have no problem with making money with these methods.

Thanks for the vouch copy [DubIA](#) and GLWS.

Ravioli - May 1, 2020, 12:26 pm

I received a vouch copy and here's my review.

There's a bunch of different methods in the ebook. I would say the value is quite high for what it is, however every method is public knowledge.. so I can see why OP is branding this as noob-friendly. I've personally seen all of these before so don't expect anything jaw-dropping. I would say 2 have some potential, but that's just my opinion. It was well-written, though. You can tell the OP actually tried to make this HQ so I respect that. Would I personally spend \$40 on this? I wouldn't, simply due to everything here being public mainstream knowledge. If I sold this ebook I would probably charge \$10 since OP's only job in this ebook was to organize the information in one place to save you some googling.

tldr: Value is quite high, but it's all public knowledge. If you're a beginner this may be something for you... but it's quite expensive for what it is. This is my honest opinion, take it as you will, but I'm not going to lie. Cheers.

Thank you for the sincere and transparent vouch! This is an important part of keeping the sellers in this section honest. I market this as the best value on HF and I stand by that statement; no other seller is providing the amount of information that I am for the price point so I think it is priced rather cheap. Never the less, I have reduced the price to make it more accessible to everyone.

I must also disagree with your claim of all of it being public knowledge and my role in simply organizing the information; it is definitely not 100% public knowledge since some of the methods are my own (i.e I had to come up with and test on my own), so you did a lazy and poor job of reviewing/vouching in regard to this claim.

We'll see what others have to say!

Deadmau5 - May 3, 2020, 2:00 pm

OP was kind enough to give me a vouch copy of this eBook. I must say I'm very impressed by the content in it. Unlike most eBook sellers, I can see that OP is entirely honest about his earnings as \$100 a week can be made easily with these methods.

I don't think you need to have any special skills to do these methods as the steps mentioned in the eBook are easy to follow. What I loved the most about this guide is the detail. Everything is explained clearly. Most eBooks I've seen on HF consists of so many pictures, and use very big fonts so as to fool people by making them believe that more pages equal to more content. This eBook is only 13 pages, one of which is for the title alone, and every other page is filled with knowledge. For only \$20, this eBook is worth it in my opinion.

Pancake Boat - May 5, 2020, 9:16 pm

I was granted a vouch copy by Dubla and this is my honest review.

The e-book consists of 12 pages written in a relatively small font and complimented with some pictures to explain the methods better.

The OP provides you with a total of 8 methods. And I am going to cover them in an overall manner.

With the first glance over all of the methods, I noticed how honest OP was about the earning potential and didn't name his thread to something like 500\$/day easy like most sellers do. These methods, of course, can be scaled to a much higher level of income but it will take some time.

The best thing about all of the methods is the fact that they are not some kind of a one-hit-wonder, that most are looking for. These do require some amount of work and some methods - a little bit of investment, but it is what you should be looking for. With these, you can kickstart your way in the world of entrepreneurship.

Personally I have seen some of the methods, but not like they would be everywhere and they also gave me some thoughts on how to twist them which is something I'd definitely try!

To conclude I would like to say that if you have some time, willpower and a tiny bit of pocket cash - this is a steal for the price.

Multiple "vouches" on this thread claim these methods are public and they already know about these methods. So you're selling literally public methods. Typical HF ebook.

Hello sir,

Thank you for the comment.

I am trying to be a very honest and transparent seller, not like the "typical HF ebook" and my thread and vouches reflect that. I am providing excellent value to the community. They are not all public methods as I have stated earlier, and to add, not all public methods are necessarily unprofitable methods. Maybe give the e-book a chance.

Cheers!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Stanley
