Hey

Anyone betting on Esports and Efifa football games at the moment? Since the corona outbreak there have been more of the eFifa games lately with the bookmakers. Anyone here making bets on these games? ?

I know this is almost a week old, but I've been betting on e-sports for years, about to open up a service :)

Really interesting from a business point of view. less from the gambler point of view. at least that's my take on it.
