NEVER SEEN BEFORE METHOD.

Get satellite radio for free!

Pricing tiers:

\$20 - Regular, no support, no guarantee

\$50 - VIP, support and answers to any questions, 100% money back guaranteed (through method or ill refund).

This is a grey hat method. Significantly easier if you're in the US or Canada. Can be done in EU/Asia but not recommended.

I'm giving away 3 vouch copies to active members. Just send a reply here or message me.

I'm intrigued on more information about this - is this a satellite hosted radio channel?

No! I'm not trying to give much away, but it works off of an existing satellite radio provider. This is a grey-hat method (im updating the thread to reflect this)

What is this ebook?

A guide on how to set up a satellite radio station?

A guide on how to set up a satellite radio station that makes you money?

A guide on how to listen to satellite radio [for free]?

Need more information.
