Thread: [Write a program to output the following pattern, 6 rows total.](#)

PolaR01 - April 29, 2020, 1:58 pm

I want the code to output:

```
$
$$
$$$
$$$$
$$$$$
$$$$$$
```

Thank you for the help!
I'm using Visual Basic

xFic - April 29, 2020, 6:03 pm

Something like this will do it.

```
Code For i As Integer = 0 To 6 - 1
    textBox1.Text += New String("$"c, i + 1) & vbCrLf
Next
```

    textBox1.Text += New String("$"c, i + 1) & vbCrLf
Next
```

Write the items to a stringbuilder, then display them in the textbox control

Vouch. The time different between string builder and just adding a string together is literally HUGE in scale.
