Thread: [anyone doing gta 5 money drops on pc?](#)

Read the title. DM me if you are doing any money drops on PC, has to be a reasonable price, and fairly cheap as well. Looking to get around 250-500m if that's possible, lol.

If you have a pre-modded account that's full access with a good amount of money on it for fairly cheap lmk as well, but preferably looking for that money drop. Thanks!
