Thread: [Ill build your project for profit share](#)

andmuchmore - May 1, 2020, 3:08 am

Got an idea you want to get off the ground?

Got a website / bot / mobile app that you would like build?

Hit me up. I am between projects at the moment and would like to take this opportunity to partner up with some people who have some ideas that they would like to get off the ground.

Post your ideas or PM me with what you are after and we can discuss your idea further.

Margins and shares are negotiable and will be quoted for each project.

i need someone who can edit a web source to accept btc payments and automatically apply the membership when 3 confirmations for the transaction has been met. if you can do this i'll give you a cut

Gigabyte - May 1, 2020, 11:58 am

Any experience with Laravel? Would definitely be interested, I've been looking to get a project off the ground for some time now.

If you have some experience with Shopify Stores, please let me know. I have an Instagram Account which reaches around 1.5M people every week and people are dying to buy products based on them.

I have built shops with both Shopify and WooCommerce. I can source quality products and I am sure we can start selling some stuff. Pm your contact and what your niche is and we can get

something rolling
